

JOSHUA EXPEDITIONS

Inspiring Purpose

Packing List for New York City

Are you ready for your expedition? You are going to have a great time, but you must prepare. In the weeks before departure, check the weather forecast for your destination by visiting the *Travel Lounge* of our website at www.joshuaexpeditions.org and clicking on Travel Links. Weather can be very unpredictable, so be prepared for a variety of conditions.

Traveling is best experienced when you go light. We highly recommend bringing only one suitcase and one carry-on. Some airlines will charge a fee for even one checked bag. It is very important to call your airline and check their rules and regulations of what is allowed on board the airplane. You can also find up-to-date information at www.tsa.gov. You will need to be at the airport at least 2 hours before departure. For groups of 35 or more, we recommend 2.5 hours before departure.

Put things you might need on the first day into your carry-on. Make sure to keep your money and ID with you during the entire trip. We suggest that you write your name and address on the inside of your suitcase. Allow extra room for any gifts or souvenirs you purchase.
